DETAILED ACTION

Allowable Subject Matter

Claims 1,3-7,9-13,15-20,33,36,39-41 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art, either singularly or in combination, fairly teaches or suggests applicant's claimed invention wherein applicant recites as follows:

As per claims 1 and 33:

Extracting means for determining that a given line part of an object depicted in a three- dimensional image is a visually important line part, the visually important line part being a contour line of the depicted object or a contour candidate line of the depicted object, and for extracting only data representing the visually important line part from data representing the three- dimensional image; overwriting means for overwriting by using the pluralities of second values associated with each pixel of the visually important line part to replace the pluralities of first values associated with each pixel of the visually important line part thereby at least reducing the aliasing of the portion of the rendered image.

As per claims 7,13,19,20,36:

Extracting only data representing the visually important line part from data representing the three- dimensional image; overwriting by using the pluralities of second values associated with each pixel of the visually important line part to replace the pluralities of first values associated with each pixel of the visually important line part thereby at least reducing the aliasing of the portion of the rendered image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
